SUMMARY

A passionate programmer specializing in web and mobile app development. After a successful run as a campus treasurer, I pursued my passion for technology, completing a full-stack web development bootcamp at Hacktiv8. I am driven by problem-solving and creating innovative, interactive digital solutions.

SKILLS

Language: JavaScript

Front End: React JS, Redux, React Native, HTML & CSS, Apollo Client

Back End: Node JS, Express, Sequelize, PostgreSQL, GraphQL, Apollo Server, MongoDB, Redis, Rest API

PROJECTS

[Dessert Bites](#)

August 2024

A web-based application featuring AI integration to search for cafes around Jakarta that offer specific desserts. The app also includes a calorie checker for desserts, nutritional information, and dessert recipes. Additionally, it has a note-taking feature allowing users to save information about their favorite desserts.

Tech stack: ReactJS, Express.js, PostgreSQL, Jest, AWS

E-commerce

September 2024

A web-based application that mimics the features of popular e-commerce platforms like Lazada. This app allows users to browse products, add items to their cart, make purchases, and track orders. It includes a user-friendly interface, product filtering options, and secure payment integration to enhance the shopping experience.

Tech stack: ReactJS, Node.js, MongoDB, TailwindCSS, JWT Authentication

Codin Connect

A social media for programmers, where users can create and solve challenges in the browser.

Tech stack: Typescript, Next.js, Monaco Editor, Piston, Docker

NewStation

A news portal website where news is distributed and can be read like a newspaper.

Tech stack: Javascript, HTML, CSS, Vercel

Z-HomeShop

A simple e-commerce website for browsing and purchasing products online.

Tech stack: Javascript, HTML, CSS, Vercel

Click-Race

A game website to race who can click more.

Tech stack: ReactJs, Express.js, PostgreSQL, Redux, Sequelize, Socket.io, AWS
